Question1: Who was responsible for managing and tapering the drugs of the patients.

Ans 1 : Of course the team of Dr. BR Chowdhury consisting of other Medical Practitioners well versed in Ayurveda as well as Allopath.

2. What was the role n responsibility of Dr Biswaroop Roy Chowdhury

Ans2 : To boost up the morale of every participants to overcome the problem of Diabetes and other related ailments in human body. It was a good experience to listen to him that how the problem of diabetes is more constructed than natural . It seems to me that it is constructed to support the capitalistic interest of the medical industry at the cost of patients. His speech builds new hope to fight with the problem of such stupid ailments.

3. Was there any facility to handle medical emergencies?

Ans 3 : Of course. His entire team of a dozen of people including physicians and peripheral assistance was at the disposal of every participants.

4. What do you think about the qualification of Dr Biswaroop Roy Chowdhury.

Ans 4 : It hardly matters where there Practical wisdom in the interest of human health care matters. His pragmatic approach to fight without drugs /pills to the cause of human-health is more important than theoretical/pedagogic /experimental approach of Degree holders in the area of medical science. To understand his approach towards such modern ailments we need to understand his diet-based concern to deal with human ailments.

The simple prudential approach of the Degree holders to treat patients with drugs and pills seems to be a meaningless exercise. His diet based-treatment is more right way to overcome the problem of diabetes/modern life-style than eating pills and drugs prescribed by degree holders to meet the problem of modern ailments. It is useless to doubt his integrity with humanity and human health. Needless to say , Galileo was punished for refuting the Church's opinion on the shape/size of the earth. He was punished. We regret today understanding that how does the authority sometimes takes unintelligible decision to punish the right one to satisfy its ego.

5. Did this camp help you in any way. If yes please mention.

Ans 5 : Yeah, it was a successful visit to attend this camp because it revitalized my health which was down in my 50s. The merit of his camp clears doubts and rebuilds health.
