Subject: Invitation to witness Cure of Chronic Kidney disease, Diabetes type 1, Thalassemia, Cancer and Heart diseases through GRAD* System

Respected Sir,

Allow me to introduce myself. I am Dr Biswaroop Roy Chowdhury, with a Bachelor's degree in Production Engineering, a Post Graduate in Diabetes, and a PhD (Hon.) in Diabetes & Chronic Kidney Disease. I am also the inventor of the groundbreaking GRAD* system. Over the past two years, this innovative nature-based approach has enabled more than 1000 of my patients to liberate themselves from the burden of Dialysis (CKD), insulin dependency (Diabetes Type 1), and even the need for blood transfusions (thalassemia), which were previously considered incurable conditions.

An observational study conducted by Dayanand Ayurvedic College & Shridhar University has reported a remarkable success rate of 75% among dialysis-dependent patients. This study has been accepted for publication in the prestigious International Journal of Healthcare Management (D.O.I <https://doi.org/10.1080/20479700.2023.2184564>). Notably, IIT Mandi and the Health Ministry of Nepal have displayed a keen interest in the GRAD system, and you can find detailed information about their involvement at www.biswaroop.com/iit.

To showcase the undeniable effectiveness of our approach, I have invited our successful patients, representing all states (approximately 35 patients), to present their medical reports and relevant evidence showcasing their remarkable recovery from otherwise incurable diseases.

On this occasion, I will also be launching our book titled "Fish Tank Model for Heart Care," which extensively documents the evidence and methodology behind our breakthrough approach.

We cordially invite you to attend this significant event** as our special guest on:

Date: July 23, 2023

Time: 11:30 am

Venue: LTG Auditorium, New Delhi

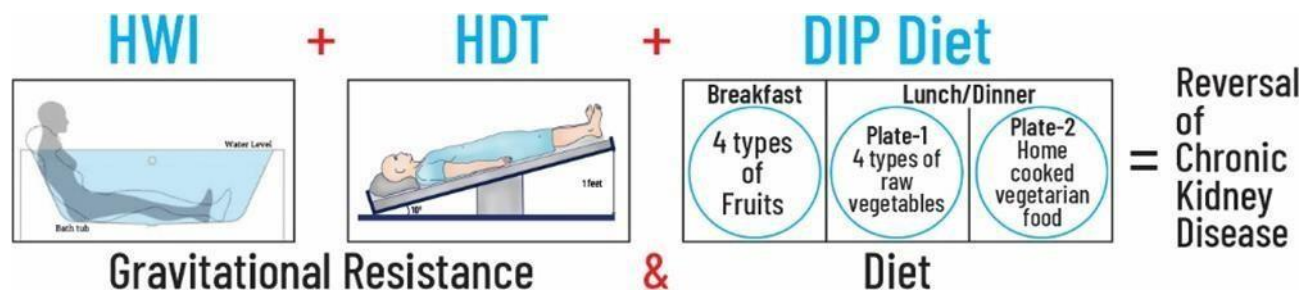

I invite you to witness, scrutinize, and validate the GRAD system*, a cost-effective method that requires only water, heat, fruits, and vegetables, and can be conveniently practised at home. Your support in spreading this revolutionary approach will contribute to saving the health and wealth of our nation.

Please confirm your presence at +91-9312286540 (or register at www.biswaroop.com/23july), so that we can make the necessary arrangements to make the most of your valued time and presence.

*GRAD (Gravitational Resistance and Diet) system
